Update on Soil Remediation in Wrangell, AK.

Public meeting conducted in town to large audience.

Road Use Permit finalized and issued to State of Alaska.

NEPA (Categorical Exclusion) signed by District Ranger and filed at local unit.

FYI. In it together (yesterday, today and tomorrow). Earl

Subject: update ADEC meeting in Wrangell and road use permit

Earl,

FYI – ADEC held their Wrangell Junkyard Repository public meeting last night to a full capacity crowd. They explained the cleanup of the junkyard and then the repository design. They would have been in a much better position if they had engaged the public earlier rather than after the fact. ADEC's John Halverson handled the meeting well but I don't think the public's concerns over the location of the repository in such a sensitive area were resolved.

I spoke in the meeting about the road use permit and the conditions of the permit to provide for public safety and protection of the road investment. NRC Alaska had some good visual aids which described the road maintenance provisions. There were no concerns from the public on the road use.

I signed the road maintenance CE today and am sending the road use permit to NRC Alaska for their signature tomorrow.

Robert J. Dalrymple
